Precision Fair Meet & Match Event 2016

Find your future project and business partners!
16 - 17 November 2016, Veldhoven, the Netherlands

Precision Fair

Precision Fair 2016

The Precision Fair is an international fair with more than 300 high tech exhibitors from all over Europe that are focused on precision technology and big science projects.

The two-day event with an international allure comprises an inspiring conference, an exhibition and a number of activities aimed at meeting and matching. Scientists, researchers, entrepreneurs, CEO's, policy makers, consultants and science students from different countries are gathering annually to share their knowledge on precision technology, machine building, big science projects and to do business and science networking. For more information see: www.precisionfair.com

Precision Fair Meet & Match Event 2016

Parallel to the exhibition and the lectures a brokerage event is held. The Enterprise Europe Network Netherlands, powered by the Chamber of Commerce, invites you to participate in this event which takes place on both days of the fair.

This Precision Fair Meet & Match Event enables participants to find partners for technological cooperation, e.g. product development, research & development, joint ventures, manufacturing, marketing or licensing agreements worldwide. At the Precision Fair Meet & Match Event 2016 - by means of previous arranged one on one meetings with relevant contact persons of your choice - companies, universities and research institutes are invited to establish new cross-border contacts for future collaboration.

The goals of the brokerage event at a glance:

- Matching you to potential project and/or business partners.
- Discovering innovative solutions to technological and big science problems.
- Identifying partners in the supply chain for semicon industry, machine building and precision instruments.
- Identifying partners for research and development projects.
- Identifying relevant business partners for distributing your products or services abroad.
- Strengthening and supporting the international dialogue.

Registration

For the matchmaking event you can register at: www.b2match.eu/precisionfair2016

Registered companies can select your profile and request a meeting with you. All requests will be forwarded to you, so you can select which parties you want to meet during the matchmaking event.

Of course you have access to these profiles as well and can select and book a meeting with your partner of interest.

The final updated meeting schedule will be forwarded just before the brokerage event.

Information about the meetings

The individual meetings will take place on the 16th and 17th of November 2016 in the **NH Conference Centre Koningshof** Veldhoven. The meetings will have a duration of approximately 30 minutes each.

Deadlines

- Registration and submission of profiles until the 14th of November, 2016.
- Booking of individual meetings until the 15th of November, 2016.
- Final schedule and confirmation until the 15th of November, 2016.

Costs

Participation in the Precision Fair Meet & Match Event 2016 is **free of charge**.

Entrance to the knowledge fair and lectures is free of charge as well.
