Agenda

The B2B matchmaking during RapidPro 2019 will be held on March 13-14, 2019.

The program consists of four slots of half a day. To offer potential meeting partners enough opportunity to meet we recommend to tap more than one slot during registration.

In 30 minutes pre-arranged meetings people meet and greet at high speed. Usually 30 minutes is enough to build connections and exchange contact information. After 30 minutes the bell rings and the next round starts.
