18th–19th November 2015
 Industrie- und Handelskammer
 Offenbach am Main
 Frankfurter Str. 90
 63067 Offenbach am Main
 Germany

Registration fee: 50 Euro

A fourth industrial revolution is about to begin. The digitization of production is replacing mechanization, electrification and informatization. Pioneers in the fields of sensors, measurement engineering, robotics, automation, mechanical and process engineering, ICT as well as logistics promote this advancement.

The symposium connects key players from the Netherlands, Luxemburg Belgium and Germany.

"Smart Industry – BeNeLux & Germany"

Learn about new smart manufacturing technologies, successful business models and their practical implementation in small and medium sized companies. Team up internationally with other leading companies and clusters and take advantage of synergies and excellent business opportunities.
 "Industry is dead – long live the industry!"

- Innovations and trends in the field of smart industry
- Key players from Germany, Belgium, the Netherlands, and Luxembourg
- New business contacts and models
