

Smart Mobility - EEN B2B and EU Research Conference

An international event organized by [Camera di commercio di Torino](#), as member of the [Enterprise Europe Network](#), and [Politecnico di Torino](#) in the framework of [Smart Mobility World](#) - the leading Conference & Expo in the smart mobility field.

The event includes:

1. Smart Mobility Enterprise Europe Network B2B
2. EU funding and policies in Smart Mobility Conference

Smart Mobility EEN B2B will be a powerful tool to find international partners for technology transfer, business co-operation and collaborative research in pre-arranged 30 minute meetings. You simply need to register introducing your organisation and to insert a detailed cooperation profile clearly explaining your offer or request and select other participants for bilateral meetings from the online catalogue.

For further details go to [“How it Works”](#).

EU Research Conference - Funding and Policies for Smart Mobility will showcase opportunities to cooperate in Research and Innovation projects in smart mobility. European funds in the framework of Horizon2020 will be presented, together with relevant international initiatives focused on Research.

Both events will be free of charge and are addressed to companies, universities, research centers and public organizations interested in potential partnerships in the field of smart mobility industry.

Main Topics:

- Electric, Sharing, Green and Urban Mobility
- City Logistics and Traffic Management
- Smart City, Smart Lighting & Infrastructures
