Itti adapter

This is the main (basic) detail that unites all solutions. Its thickness is only 3 mm. Adapters of this thickness most likely do not exist on the market (for example, from the [Quad Lock company](#) - 5 mm.)

Made from glass-filled polyamide. Connects to the device (or its case) using 3M VHB tape. Compatible with all third party magnetic mounts.

Teneo Tutus

Made from glass-filled polyamide. Connects to the device (or its case) using 3M VHB tape. Compatible with all third party magnetic mounts.

Features of Teneo Tutus:

- Intuitive connection.
- Clear fixation in two positions (vertical and horizontal) with a quick transition between them.
- Disconnection by rotation and displacement.

[Video of the operating principle.](#)

Teneo Tutus and tripod thread

The main function of Teneo Tutus is to connect smartphones and tablets with anything that has a tripod thread (tripod screw).

This is a large range of devices:

- mounts for GoPro, SJCAM, Sony cameras with a variety of rotating mechanisms;
- photo tripods;
- monopods;
- selfie sticks.

The following will show some options for using Teneo Tutus with such devices.

A video that demonstrates the reliability of Teneo Tutus and two options for its use.

Bicycle clamp

Crab on a motorcycle

Vacuum suction cup in a car

Vacuum suction cup in the kitchen

Tripod

Self-tapping screws

The design of Teneo Tutus allows it to be attached to any surface using self-tapping screws. This use case is suitable not only for smartphones and tablets, but also for quite heavy things: small TVs, surveillance cameras, speakers, lamps, etc.

Cutis (optional)

Cutis is a small genuine leather strap with a Dual Lock clasp from 3M and a frame.

Allows you to quickly connect Teneo Tutus to any profile from 25 to 50 millimeters in diameter - the handlebars of a bicycle, motorcycle, car, the handle of a baby stroller, etc.

[Video of the connection principle.](#)

Bicycle handlebar

Steering wheel

Arma (optional)

Arma is a polyamide webbing with a triple frame.

Allows you to quickly connect Teneo Tutus to any profile from 60 millimeters in diameter to... how long the strap is long enough - a headrest or the back of a car chair, a tree, a pole, a column, etc.
