# Are You looking for sustainable suppliers?

Fresh fruit consumption worldwide is evolving towards a more sustainable approach to production and processing.

## Free trade agreements

Thanks to Colombia's trade agreements with some of the world's markets, our products arrive at their destination with a **0% fee**

## Experience

We have producers with more than 25 years of experience in exotic fruits and specialized allies for the fast and safe shipment of fresh products by **air cargo** or **sea freight**

## Transparency

We offer traceability and confidence to the importer about the processes in the production to the distributors at destination.

**\*Blockchain traceability**

## Shorter delivery time

We are located in Bogota, 30 minutes from the third largest cargo airport in Latin America.

**El Dorado International Airport**

## Seasonality

Colombia's unique geographical position, our diversity of climates, soil and water quality allow us to have:

**Production all year round**

## Why should we become your supplier?

We care for the planet's resources through an integrated strategy under high standards of **environmental and social responsibility**.

# About Us

Take care of the planet and join the movement towards a more sustainable future!

## Our Philosophy

At Alnattural, we are committed to working under high standards of environmental and social responsibility to protect the planet's resources.

## Our Mission

We share the abundance of Colombia with any part of the world in the most efficient and respectful way, so that they arrive with all the love and freshness!

## Economic impact

Our production and marketing of exotic fruits generate employment in the communities where we operate, boosting economic development and improving the quality of life of many people.

## Social impact

Not only do we create jobs in rural communities, but we also work closely with local farmers, providing training and technical support to improve their farming practices.

## Environmental impact

We use sustainable agricultural practices that minimize our impact on the environment, such as efficient water management. In addition, we strive to preserve biodiversity in our production areas.

**12** RESPONSIBLE CONSUMPTION AND PRODUCTION

Promoting the use of bioinputs, reducing food losses in the production chain.

**5** GENDER EQUALITY

10 Direct employment  
+20 Indirect jobs  
40% Women

**13** CLIMATE ACTION

Promoting training and protocols for action and awareness of climate change.

# Products

Give your business a boost with the exciting flavors of our tropical Colombian fruits.

**20 tons / monthly**
