Gloma[®] Ltd is a leading company specialized in surface treatments (paint finishes, pad printing, enameling, etc.) in the small accessories market since 1997.

From Textile Industry (buttons, buckles, sliders, rivets and other); Footwear Industry (eyelets, other); Metal Construction (screws and rivets); Cutlery (cutlery, napkin rings); among others.

We give color to little things ... in all industries.

Our mission is to be a leader in its industry and markets, distinguished by the quality of our services, with a focus on innovation and creativity and strict standards of professionalism and environmental responsibility.

The OEKO-TEX[®] label indicates the additional benefits of tested safety for skin-friendly clothing and other textiles to interested end users. The test label therefore provides an important decision-making tool for our clients.

This is only a small sample of our services.

Iml-Rust

Iml-Fur

Transparent Painting

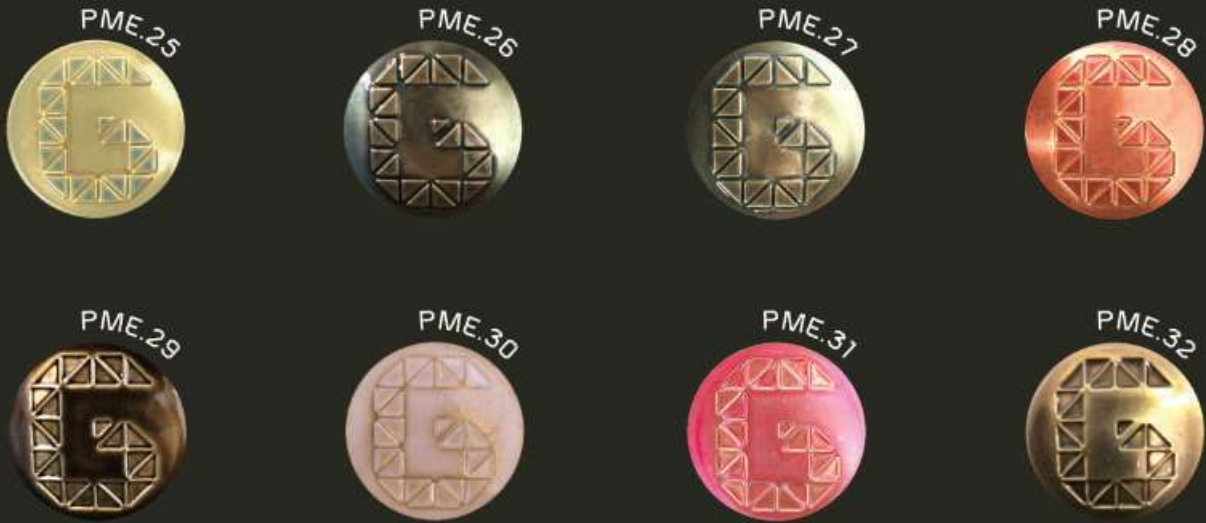

We have, not only color, but also the creativity on a strong competent basis.

The final transparent effects are divided into two parts: Imit-patina and Ceramic

Iml-Patina

Ceramic

Camouflaged Painting

GLOMA®'s R&D Department is attentive to new trends, researching and developing new finishing's, with creativity and environmental awareness.

This style of painting can be divided in two groups: Spotted Painting and Orange Peel Effect.

Orange Peel Effect

Texture Painting

GLOMA®'s R&D Department is attentive to new trends, researching and developing new finishings, with creativity and environmental awareness.

Texture Painting came from one of these creativity flashes in search of new textures.

This finishing can be divided in two groups: Sand Painting and Spider Painting

Texture Painting

Sand

Spider

Vintage Painting

Vintage Painting is actually a final automatic finishing (polishing) which is applied after any painted accessory, removing the paint from its relief, giving an "old" look to the part.

Vintage Painting

Scratch Painting

Scratch Painting is a combination of two or more colors on the same surface.

In this space we have samples of some possible combinations.

Scratch Painting

Other Special Finishes

Our R&D Department is always abreast new trends, investigating and developing new finishes with creativity and environmental security.

We will keep this section updated with all the special and creative finishes from GLOMA® Lda.
