

The Problem - Our Solution

Our Team

Milestones

“Magic happens in the kitchen...
we help you discover it”

The Problem

- Increasing obesity rates worldwide in children and teenagers (**20% to 30%**).
- Increasing mortality rates attributable to dietary composition and weight.
- **1.3 billion** tonnes of food are wasted yearly = **10%** of global greenhouse gases.

Our Solution

100% hands on cooking program that promotes:

- Creation of **healthier eating habits**.
- Decreasing of **household food waste**.
- Promotion of **local ingredients** and higher nutritional impact cooking techniques.
- Creation of **alliances** among local farmers and consumers in cities.
