

Why metal stands are essential for your personal space

The metal stands for pots with wheels give you the opportunity to transfer them easily in order to change the style of your personal space or to help you keep your space clean and safe.

By using stands for pots every ceramic or plastic pot stands out from the background and looks more special and beautiful.

Our hanging products help you to create a beautiful balcony and garden even if you do not have extensive space. Also make your house or garden look outstanding.

Multiple position stands help you to have a small garden with different flowers in just a small area. In this way you save space in order to decorate it with your style.

EVANGELOS M. BANOS

Metallic Stands for Pots and Fireplace Accesories

Our company and our products

The company Banos M. Evangelos is a Greek business and its major is to design and produce metal stands for ceramic and plastic pots which fit perfectly in every garden or balcony. Our company also produces fireplace accessories.

The products are constructed from high quality materials and are processed with contemporary CNC machines.

After the production process, the products will be galvanized by the process of ionizing in order to create a top coat which helps the product to become resistant to inclement weather conditions and be perfect for the lifespan of the product.

For the best results, all the products are painted electrostatically in a special dedicated and configured unit.

Garden Items

These stands for pots fit perfectly in every garden or balcony because of their modern and unique style.

There are categories of different types of stands: flower pot stands, stands with wheels, hanging stands, multiple position stands

We design products with an influence of arts in order to have a unique style, but our first goal is to be functional and smart in use. Our stands are able to be transferred in order to protect your flowers during winter, or you can move them just for cleaning and keeping your garden beautiful and clean.

Fireplace Accesories

Also we have a special collection of fireplace accessories.

With focus on functionality we offer you different useful accessories which help you use the fireplace and make the process much easier.

We also offer alternatives for lifting the woods easies.

Safe and easy transfer of woods from outside areas to inside with trolleys in different sizes and storage capacity for your needs.
