

Welcome to Our Website

Our company, Komló-Habilitas Nonprofit Public Benefit Ltd., has been present in Hungary since 1989 with a stable, 100% Hungarian ownership background, three decades of experience in the woodworking industry, and a strong history of working with domestic and export market partners for over 20 years (Germany, Italy).

Currently, our company employs nearly 90 people, of whom approximately 85% are individuals with disabilities, including those with multiple disabilities and intellectual impairments (mild to moderate intellectual disabilities).

People with disabilities and their families form one of the most vulnerable social groups.

“Our mission is to create and maintain an environment where individuals have equal opportunities to succeed in the workplace”

Our goal is to provide value-creating employment opportunities that offer support while engaging in public-benefit activities essential for both individuals and society. Through years of rehabilitation employment, our employees have acquired skills that enable them to self-check their work at various production points. As a result, they can produce durable, reliable, and high-quality products.

In our facility, the majority of production is focused on our own products, resulting in high-quality and marketable woodworking and textile industry goods. Our main products include garden furniture, sun loungers, chairs, tables, beds, children's furniture, wooden toys, and decorative creative hobby items.

85% of our manufacturing activities are related to the woodworking industry. In carpentry, we use a closed technology system and source our raw materials from responsible forestry. Our workshop is equipped with a complete machinery park, enabling the production of high-quality products tailored to customer needs and offering a wide range of services to our clients.

To utilize our available capacities, we offer and seek contract manufacturing primarily in the following areas. However, we are open to any form of collaboration:

- Manufacturing of custom products and furniture for domestic and international markets
- Production of edged lumber
- Manufacturing of outdoor and garden beech tables, benches, and other outdoor equipment
- Production of sun loungers and deck chairs for the hospitality and beach industries
- Large-scale production of cutting boards
- Manufacturing of fruit crates
- Children's furniture (tables, chairs)
- Chairs, tables, stools, garden chairs
- Wooden boxes, crates, planters, flower holders, raised garden beds
- Beds, bed slats, children's beds
- Production of fence slats, fence elements, wooden slats, and terrace boards
- Broom
- Broom handle, mop handle and flagpole

Our machinery park includes, but is not limited to:

- Pendulum saw
- Panel saw
- Surface planer
- Thickness planer
- Band saw
- Four-sided planer
- Industrial spindle moulder
- Wide belt sander
- Edge sanding machines

- Edge sander
- Belt sander
- Milling machines
- Column drills
- Mortising machines
- Woodturning lathes
- Handle shaping machines
- Mitre saws
- Tenoning machine

Beyond manufacturing our own products using our own raw materials, we are capable of:

- Manufacturing custom products for our clients using our own raw materials (contract manufacturing with our own materials),
- Producing products using raw materials provided by the client (contract manufacturing with supplied materials),
- Processing raw materials provided by the client (e.g., contract sawing) machining services (e.g., planing, thicknessing, cutting to size, etc.), kiln drying of wood (contract drying)

"Our well-equipped machinery park enables a wide range of operations and processes on our production line, allowing us to manufacture both simple and more complex, labor-intensive products"

Our featured woodworking industrial products:

- Sun loungers
- Chairs and tables
- Single, double, and bunk beds
- Nursery and children's furniture
- Wooden toys
- Decorative and hobby products
