

SUSTAINABLE EXCELLENCE:  
CRAFTING THE FUTURE WITH RESPONSIBILITY & INNOVATION

TÊXTEL NORTENHA

## MEET OUR COMPANY

For over 71 years, Empresa Textil Nortenha has been a trusted partner for prestigious fashion brands all over the world.

Distinctive in the clothing industry for both circular knit and woven fabrics, our production is 100% Portuguese, following rigorous ethical and quality standards to ensure excellence in every garment.

We provide a full-service approach, assisting brands at every step—from design consultation to material sourcing and rigorous quality control. Our commitment to sustainability, precision, and craftsmanship makes us the ideal partner for brands seeking top-tier manufacturing with a strong European heritage.

To ensure our greener footprint, we have become certified as:

## SUSTAINABLE EXCELLENCE: CRAFTING THE FUTURE WITH RESPONSIBILITY & INNOVATION

At Empresa Têxtil Nortenha, we believe premium quality and sustainability go hand in hand. This curated portfolio highlights our expertise in working with responsible materials —each selected for their lower environmental impact and high-performance qualities.

Sustainability is not a passing trend for us—it is a fundamental pillar of who we are. We continuously invest in researching and sourcing innovative materials that are fashion-forward, durable, and more future-friendly. Our goal is to empower clients with choices that align design excellence with environmental responsibility.

Through every piece we produce, we aim to contribute to a more positive impact on the world—one garment at a time.

## ESSENTIAL ORGANIC COTTON TEE

Made from 100% organic cotton, this everyday essential is soft, breathable, and grown without harmful chemicals. Naturally biodegradable and built to last, it is a better wardrobe staple with a lighter footprint.

ETN 14689  
ORGIN13 200 g/m2  
100% COTTON ORGANIC

## BAMBOO BANANA TEE

A soft, breathable tee made from 60% bamboo and 40% banana fiber—an unexpected duo with a natural touch. Lightweight yet durable, it's a feel-good essential crafted from fast-growing, low-impact plants. Better for your skin, better for the planet.

ETN 14437

## PURE LINEN VEST

Crafted from 100% linen, this vest brings effortless layering with a lighter environmental footprint. Linen is a naturally sustainable fiber—requiring less water, fewer chemicals, and offering full biodegradability.

ETN 0183.24  
JER975 140 g / m2 100% LINEN

## ASYMMETRIC CUPRO MAXI DRESS

Fluid, long dress crafted from cupro—a silky, plant-based fiber made from cotton waste—offering a luxurious feel with a lower environmental impact. Gathered pleats at the shoulder and waist add a refined, sculptural touch, while its drape and asymmetrical detailing create a timeless silhouette of understated elegance.
